

OB52 Double-Sided Isolation Tape

National Stock #1H5640015667392X3

Product Description:

This tape is an ***extremely durable abrasion, puncture, impact and tear-resistant tape*** constructed with high strength film w/adhesive on both sides. OB52 was created for and approved for navy and defense specification needs. This unique composition of puncture and abrasion resistant film & psa bonds to virtually any surface or material.

Features and Benefits:

- Meet detrimental material requirements of MIL-STD 2041
- Weather resistant and ideal for isolation and protection of substrates from corrosive elements
- Conforms to irregular surfaces
- Will not tear yet can be easily cut with scissors
- Easy “peel and stick” replaces messy glue and adhesives
- Designed to hold any film or product against walls, pipes, boxes for moisture & toxic fume leaks
- Adhesive tested/approved and won't degrade over time

Technical Data:

CONSTRUCTION:

.005" acrylic adhesive w/.004" white LDPE film release liner

.004" polyurethane elastomer film

.012" acrylic adhesive w/.004" paper release liner

Total thickness after liner removal .021"

Elongation % @ break 500 -ASTM D882

Operational temp range: 180F long term, max service temp: 200F

Color: Matte transparent (colors available upon request)

*Thickness of total product may vary +/-15% due to the OEM thickness tolerance specifications.

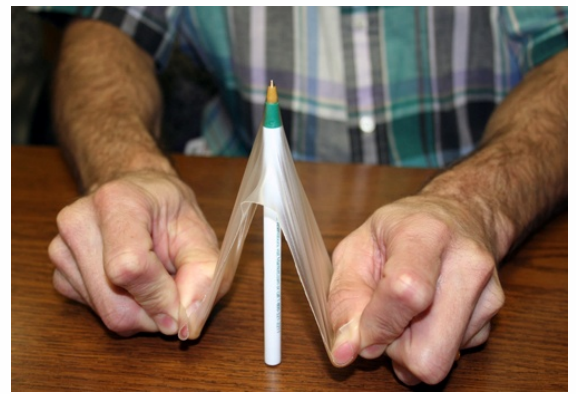

Width of total product may vary +/- 15%.

GENERAL INFORMATION:

Standard rolls are 2" x 30' each. 42 rolls/case. 2 case minimum

Different widths can custom ordered. Patch pieces can be cut to any size or shape needed, please inquire.

National Stock #1H5640015667392X3

No-Tear OB52 resists puncture and tearing
